Responsible Food System Youth Game Challenge

Are you ready for an exciting journey toward sustainable food consumption and production? The TRANSFoodMERS initiative proudly presents two engaging educational tools: the TRANSFoodMERS Board Game and the Digital Game, designed to inspire players of all ages to make informed and responsible food choices.

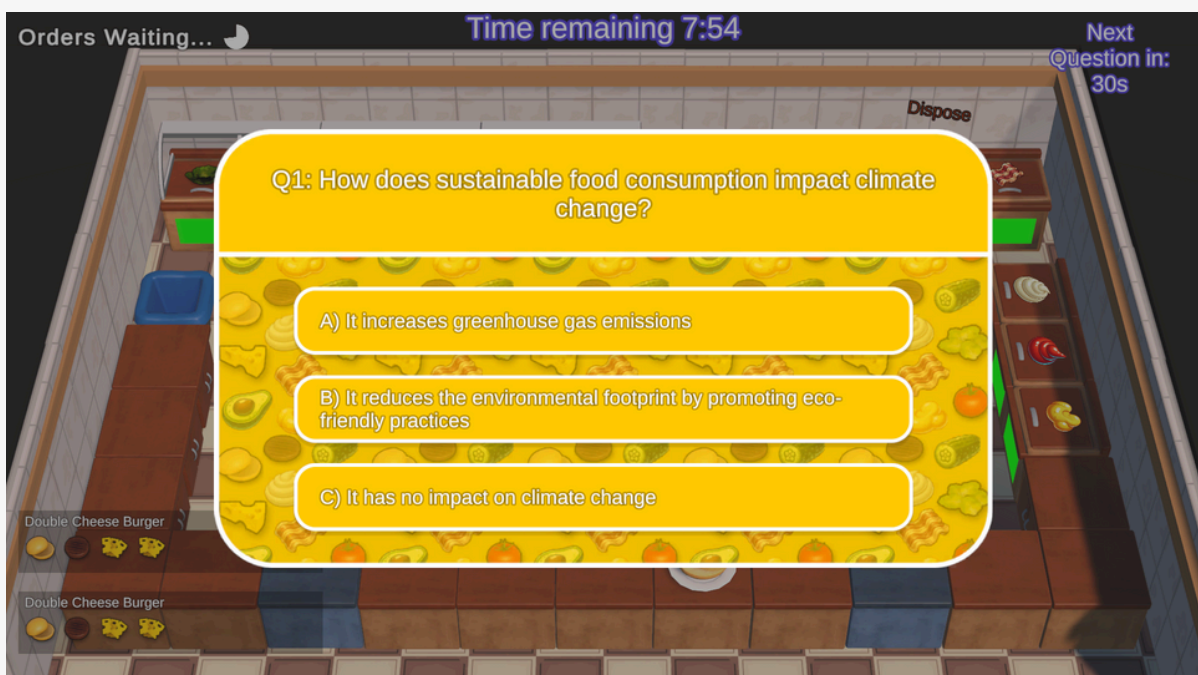

TRANSFoodMERS Board Game:

This interactive, knowledge-based game takes players through real-world scenarios where they answer sustainability-related questions, make strategic food choices, and navigate challenges in food production and waste management. With 90 insightful question cards and 10 special event cards, this game fosters awareness about the environmental impact of our dietary habits.

TRANSFoodMERS Digital Game:

Bringing sustainability to the digital space, this engaging online game immerses players in virtual challenges where they can explore sustainable farming, ethical consumption, and waste reduction techniques. With interactive tasks and gamified learning, it is an excellent tool for individuals and educators looking to integrate sustainability into their daily lives.

Why Play?

- Learn practical ways to reduce food waste and carbon footprint.
- Understand the impact of food choices on the environment.
- Compete and collaborate with friends and family for a sustainable future.

Join us in reshaping the future of food! Whether on the board or in the digital world, every move you make contributes to a greener planet.

 Stay tuned for launch updates and access to the digital game! Find the TRANSFoodMERS Games here: <https://transfoodmers.eu/>
